

things to remember when...

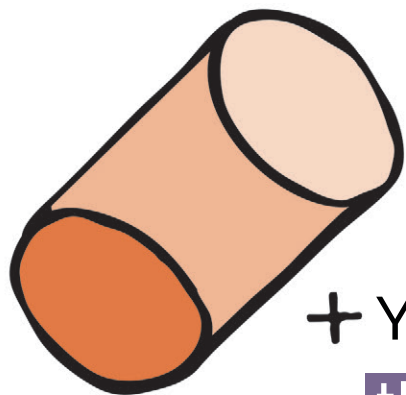

Completing a reflection

+ When your teacher hands back your **marked test**, use the **code** to access your reflection.

+ If you **answer every question** related to a module correctly, that module is **'mastered'**.

+ You can **fix up mistakes** on the online questions during the **reflection**.

+ Your **effort score** for the cycle shows how much **work you completed**.

+ Your **accuracy score** for the cycle shows how **thoroughly you learned** when you did your modules.

+ The **growth score** shows how much **new maths you mastered** this cycle.

Master 1 module = Growth score 33%  = 0.33 year's maths per year

Master 2 modules = Growth score 67%  = 0.67 year's maths per year

Master 3 modules = Growth score 100%  = 1 year's maths per year

Master 6 modules = Growth score 200%  = 2 years' maths per year
